

Robinson R44 II OY-HHR

265,000.00 EUR

SOLD

ASI are proud to present this outstanding Robinson R44 Raven 2, built in 2009 and operating on condition for private use until year 2032. The aircraft has a total of 750 hours since new and had new main rotor and tail rotor blades installed in year 2020. The helicopter was originally built as a Clipper and was fitted with floats but these have since been removed, they are available should the buyer wish to have them reinstalled. The aircraft is on the Danish CAA register and can remain registered in Denmark for any European buyer. This aircraft presents extremely good value for a private operator wishing to fly for the next ten years with a lower depreciation in value compared with a new helicopter. The exterior paint work and interior are in very good condition and the aircraft is ready to fly away today. Viewings welcome any time at our showroom facility at Neustadt Aisch EDQN. We can also arrange worldwide shipping for this aircraft.
