

Robinson R66 2020

0.00 EUR

+ EU Vat
SOLD

ASI are proud to present this highly specified Robinson R66 turbine helicopter. The aircraft was supplied factory new in 2020 and has since flown around 130 hours total time with one owner. It has just about every optional extra that is possible to add to this helicopter including the large 43.5usg aux fuel tank that really cuts this helicopter out from the competition with fuel endurance and range. The helicopter is fitted with the latest Garmin glass that includes the G500Txi PFD, GTN750Xi com/nav/GPS, and HeliSAS digital autopilot that does a fantastic job of flying the aircraft. In addition there is a radar altimeter and air conditioning. If you are looking for a like new aircraft without the wait from the factory then look no further. We are currently in the process of registering the helicopter under the FAA but it would also be possible to have it on an EASA registration.

Aircraft details

AIRCRAFT TYPE	Helicopter
MAKE	Robinson
MODEL	R66
YEAR	11/2020
