## Cessna 340 D-ITFA

+ EU Vat  
**SOLD**

ASI are proud to present this german registered Cessna 340 built in 1978 and with RAM engines installed in with just over 800 hours since overhaul. The outstanding aircraft benefits from having all SID's completed and is ready to go into commercial operations or to a private buyer.

In addition to its fuel capacity of 200 Gal, there are also longer distances possible.

The good working and reliable IFR platform is supported by a Bendix Weather Radar and Goodrich Stromscope. Also a big extra is the Engine Monitoring System EDM790.

The heater was replaced in 2021.

The airframe has only 3475 hours from new. The interior and exterior is in really good shape.
