

Cessna C172A

59,000.00 EUR

SOLD

Aviation Sales International is pleased to present this Cessna 172A.

She is in a good condition. The interior is reminiscent of the aviation of yesteryear. It is a piece of aviation nostalgia that should be passed into the hands of a lover.

The airplane shines with its super good-natured flight characteristics as well as the, compared with other 4-seat airplanes, low fuel consumption.

The Cessna was built in 1960 in the USA and then imported to Germany. There it had only 2 previous owners, which also explains the low number of hours of the airframe.

For an enthusiast or a beginner in flying with his own plane, the Cessna is a very good option.

We will be happy to answer any questions you may have!
