

Sikorsky UH-60

0.00 EUR

ASI are proud to present this fleet of four civilian registered Blackhawk helicopters.

The aircraft are currently registered under EASA and are the only civilian operated Blackhawks in Europe.

The aircraft are equipped for load lifting and firefighting but can also complete a multitude of other roles.

We can assist with transfer to the FAA and export world wide. These helicopters were ex US military and were converted for civilian use by the current owners.

Aircraft can be sold individually or as a complete fleet.

There are two model 60 and two model 60A available all built between 1980 and 1986.

The aircraft are in good condition, fully airworthy and ready to go to work.

Please request future information from our office, component times etc.

Price on application.
