

AS355N OM-IKM

875,000.00 EUR

+ EU Vat
SOLD

ASI are proud to present this Eurocopter AS355N built in 2002 with just over 3000 hours since new.

The aircraft presents extremely well and has been used for commercial operations in Europe and currently under CAMO.

The 12 year inspection was completed in 2015 so good until 2027. The helicopter is equipped with an autopilot along with seating for six.

With low total time and good times remaining on all components this aircraft is ready for many years of flying.

We can assist with transfer to other European EASA or FAA registration.
