

## Citabria 7GCAA Ultimate Adventure G-ZOSA

**150,000.00 EUR**

SOLD

We are delighted to have this 2006 Citabria in stock at the Solent showroom. The Citabria is a light single-engine, two-seat, fixed conventional tail wheel aircraft designed for flight training, utility and personal use and is capable of sustaining aerobatic stresses from +5g to -2g. Its name, "airbatic" backwards says it all. This fabulous one owner aircraft is in exceptional condition for its age and benefits from an upgraded superior engine fitted since new. With this power plant this great aircraft will offer performance similar to a Super decathlon.

With just 672 hours from new we simply cannot fault this aircraft. With an annual recently completed she is ready to fly away.
