

Agusta Bell 206B II

280,000.00 EUR

An icon of rotary aviation, the Bell 206B II Jetranger is a versatile, reliable and practical helicopter used worldwide for almost any task imaginable.

Our example of this staple helicopter comes with a striking, modernised red, white and grey paint scheme, a modern grey leather interior in 5-seat configuration and a range extender allowing for a 3 hour fuel endurance.

Equipped with a trig 8.33 spaced radio and a Garmin 330 transponder, this aircraft is ready to be used for whatever your needs will throw at it.
