

## Casa C212 Fleet

**0.00 EUR**

ASI is thrilled to unveil our fleet of five CASA C-212 Aviocar aircraft, each uniquely tailored for STOL (Short Takeoff and Landing) operations. Designed with durability in mind, these aircraft boast high-mounted engines and robust fixed landing gear, allowing them to excel in harsh, uneven terrains. With a commitment to efficiency and reliability, these planes feature a low-maintenance design that ensures they're always ready for duty.

Each aircraft in our fleet is powered by twin Honeywell TPE331-5-251C engines, renowned for their

dependability and performance. We provide comprehensive records, including full documentation, component lifecycles, detailed logbooks, and a complete history of each aircraft, ensuring transparency and peace of mind.

The CASA C-212 Aviocar is celebrated for its versatility, serving in various roles from cargo transport to military applications since its inception. Its ability to operate in austere environments makes it the ideal workhorse for challenging missions.

Embrace the opportunity to enhance your operations with a proven, versatile aircraft. With 5 aircraft total, contact ASI today to discover more about our CASA C-212 fleet and how it can serve your needs.

## Aircraft details

|                 |                      |
|-----------------|----------------------|
| AIRCRAFT TYPE   | TURBINE MULTI ENGINE |
| MAKE            | CASA                 |
| MODEL           | C212-100             |
| YEAR            | 1974-1975            |
| REGISTRATION    |                      |
| AIRFRAME HOURS  | 8000+                |
