

## Robinson R44 Raven OK-LTM

**175,000.00 EUR**

SOLD

ASI are proud to present this Robinson R44 Raven 1, the aircraft was built in 2008 and completed its 12 year extension inspection in 2020 with new MR and TR blades being installed at this time. The aircraft can fly for private use until 2032 or until it reaches TBO at 2200 hours, the aircraft has 1820 hours since new so 380 hours remaining to be flown. Once TBO is reached it will make for a cheap overhaul as both the MR and TR blades will have plenty of life remaining so can be remain on the helicopter. Both exterior coachwork and interior are in

pristine condition and the helicopter flies very well. The annual inspection and ARC will be completed prior to sale so she will be ready for her new owner to fly for the next 12 months / 100 hours.
