

## Alpi Pioneer 400 PH-DAR

**130,000.00 EUR**

SOLD

ASI is proud to present this Pioneer 400.

With space for up to 4 people and a cruising speed of 120 knots, the plane with its inexpensive Rotax engine is the ideal touring plane for a small family.

ELT renewed in 2019, Gearbolts overhauled in 2017, fuelsystem overhauled in 2022.

With its great paintwork and winglets, this plane not only looks good, it also has great performance.

We are looking forward to do a test flight with you.
